TextField

Password

TextField

Login

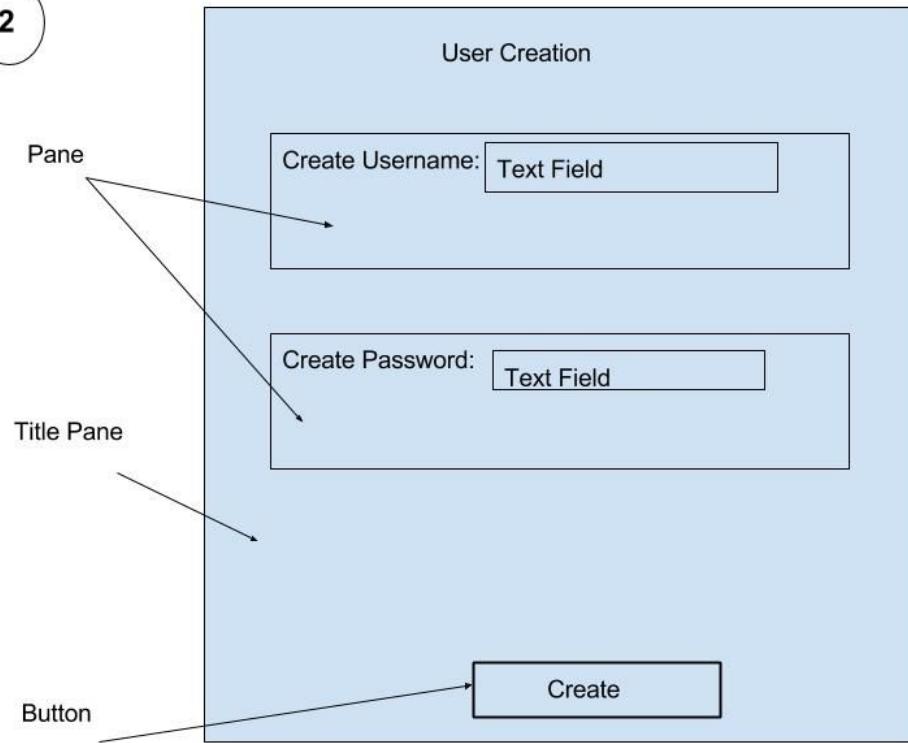

Create

Button

User is presented with login page, choice of logging in or creating a user

Photo Album Storyboard

2

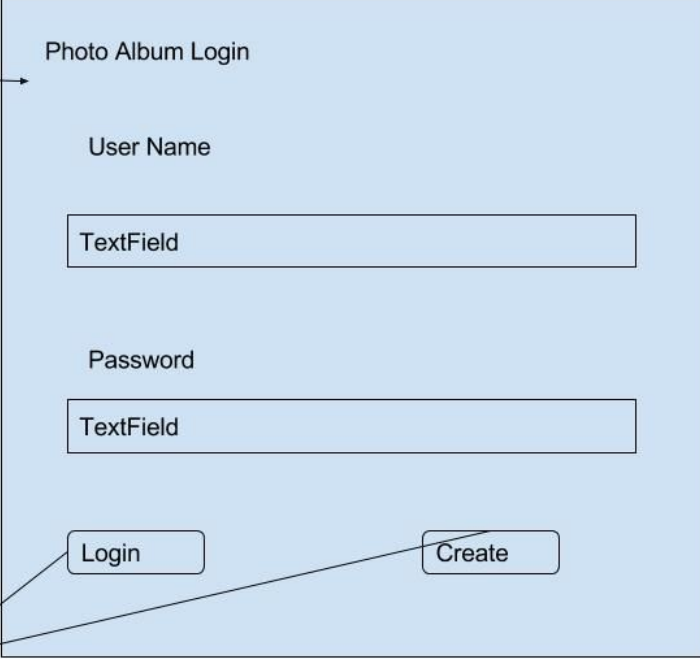

If user creates

User types in their credentials that they want and clicks create.

Photo Album Storyboard

3

Title Pane

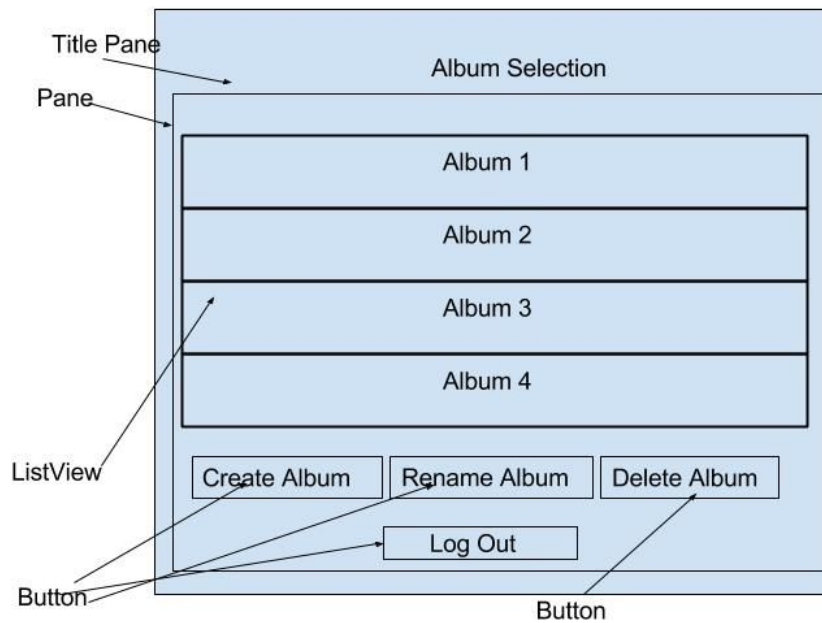

The storyboard shows a light blue rectangular frame representing the login screen. At the top, the text 'Photo Album Login' is centered. Below it, the text 'User Name' is centered, followed by a rectangular 'TextField' box. Further down, the text 'Password' is centered, followed by another rectangular 'TextField' box. At the bottom, there are two rounded rectangular buttons: 'Login' on the left and 'Create' on the right. An arrow labeled 'Title Pane' points to the top-left corner of the frame. Two arrows labeled 'Button' point to the 'Login' and 'Create' buttons respectively.

If user is done
creating and
decides to login

User types in
the credentials
and logs in
loading their
saved albums
